## OPERATION BOARD

Made in Germany

### TIME SAVING

These tools especially save time and thus real money.

### SAFE WORK

With these tools, the focus is particularly on safety during use

### ONLY FROM GEDORE

These tools are protected by us by patent, utility model, or design patent

### MATERIAL-PROTECTING

These tools protect vehicle of spare parts from damage during removal and installation

### COMMERCIAL VEHICLES

These tools are especially developed and suited for the use on commercial vehicles

### TRANSPORTERS

These tools are especially developed and suited for the use on transporters

### AGRICULTURE

These tools are especially designed and suitable for use on agricultural vehicles

## KL-0080 SERIES

# REPAIR KITS FOR CABLE/PLUG CONNECTIONS

Clean drives, reliable assistance systems and completely autonomous driving as a goal.

What seems to be technically manageable today, will be extremely challenging during repair at the latest.

The advancing digitalisation of automotive engineering, requires a complex electromagnetic system that combines sensors, actuators and radio transmitters in a far-reaching line system.

Up to 8 km cables, thousand of plug connections and various shielding systems are installed in modern vehicles.

In order to prevent a negative effect on the vehicle weight, the lines are becoming thinner and the plug connections thus more and more difficult. The tiniest modification in the cable cross-sections or the plug connections can cause serious errors. Thus, a professional repair is essential that results in restoring the factory default settings.

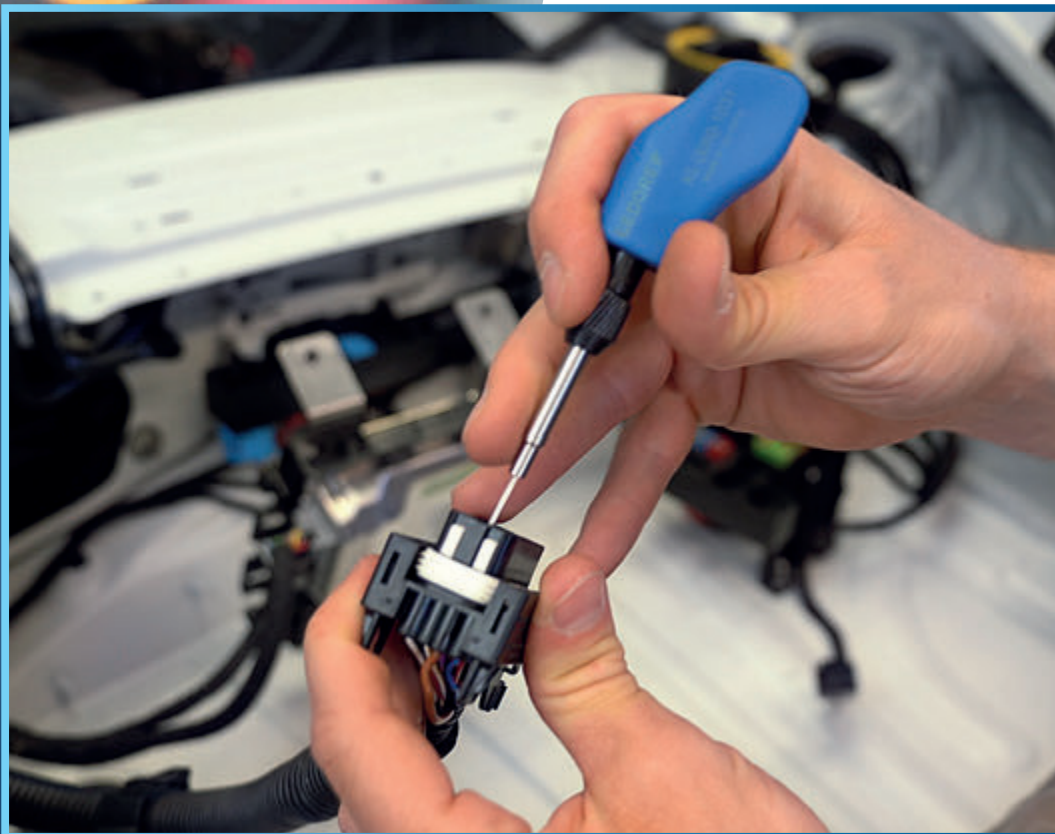

The GEDORE KLANN EXPERIENCE even represents indepth knowledge in this particular area of vehicle repair. Resource-efficient, time-saving, safe, professional.

# NEW

Application video

## Caution: System failure!

Oxidation or temporary repairs and plug connections do not only result in a time-consuming troubleshooting but can also lead to massive errors on the vehicle system. Sensor signals, actuator activation as well as data transfer on the CAN bus system can be massively disturbed. In the worst case, this can cause delays or the failure of the assistance systems!

The repair of FAKRA plug connections on for example GSM mobile radios, GPS systems and rear view cameras has also been a challenge so far. In this case, the transmission of high-frequency signals can be also massively disturbed due to already slightly visible oxidation on the plug connections or due to damaged shieldings. Until now, the only solution in most cases has been a time-consuming and costly exchange of the complete FAKRA coaxial cable in the entire vehicle.

The newly developed repair kits of the **KL-0080 series** enable the professional unlocking, stripping and controlled crimping of the most common cable / plug connections directly on the vehicle - quick and professional. The kits are supplied including suitable socket and plug contacts. Due to the interchangeable CRIMP heads, the repair kit can also be easily extended for many other plug connections in the future.

# NEW

## CRITICAL PLUG CONNECTIONS REPAIR SAFELY IN OEM QUALITY

KL-0080-1 K

### WIRING HARNESS REPAIR KIT with consumables

28piece + 1025 small parts

Made in Germany

Universally suitable for standard wire/terminal connections on passenger cars, commercial vehicles, vans, buses, construction machinery, agricultural machinery, trailers, and semi-trailers.

Especially for wire/terminal connections with and without single conductor seal (ELA), such as MCP-2.8, JPT, MQS, DTM/DT-twisted, SuperSeal-1.5, as well as for conventional crimp connections such as wire lugs, flat spade wire terminals, female flat spade wire terminals, butt connectors, etc.

**UNLOCKING, STRIPPING** and **CRIMPING**, all stored within easy reach in a clearly arranged case system.

Defective, oxidised, or provisionally repaired wire/terminal connections can lead to serious system failures on the vehicle. For this purpose, the repair kit for professionals in particular offers a comprehensive and robust assortment for the quick and professional repair of almost all common wire/terminal connections on the vehicle. Due to the unique and compact basic tool/changeable insert system, this can also be expanded as required in the future. The scope of delivery already includes a generous assortment of the most common contacts and seals.

**UNLOCKING:** Unlocking tool with matching interchangeable inserts for a damage-free release of a wide variety of cable/plug connections from the connector housing.

**STRIPPING:** Stripping tool with razor-sharp interchangeable inserts for precise stripping, especially for cables with extremely slippery PVC isolation.

**CRIMPING:** Crimping tool with interchangeable inserts for a perfect crimping result as ex works, guaranteed by the special cable / plug positioners. The tool can only be opened again when the pressure required for the crimping process has been fully applied.

## REPAIR KIT

for FAKRA plug connections

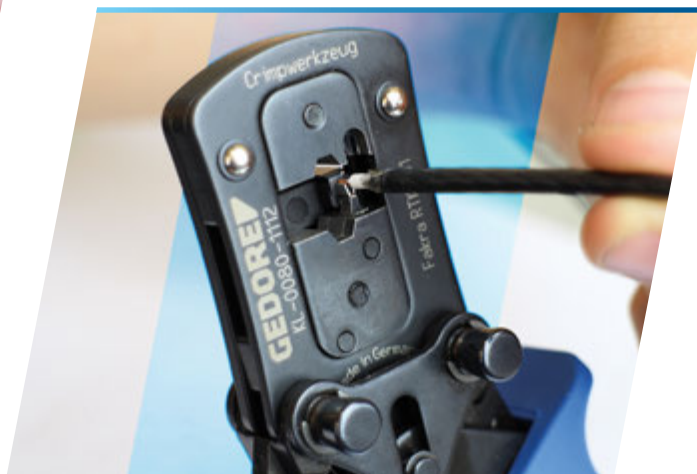

Made in Germany

Universal fit for cars, commercial vehicles, and vans with FAKRA cable/plug connections (RTK031 and RG174). Installed, for example, on GSM mobile radio antennas, GPS antennas, and in rear-view camera systems.

For quick and professional stripping, crimping, and repairing FAKRA cable/plug connections. Time-consuming replacement of the entire FAKRA coaxial cable, usually across the vehicle, is not required! Defective, oxidised, or provisionally repaired FAKRA cable/plug connections can lead to system failures on GSM mobile radios, GPS systems, and rear view camera systems.

## TOOL TROLLEY WITH HIGH VOLTAGE ASSORTMENT

- The perfect tool kit for maintenance and repairs on hybrid and electric vehicles
- Suitable for vehicles of all manufacturers
- All tools are protective insulated to EN 60900/EC 60900
- Tool trolley: Side walls with Euro perforation, externally mounted heavy-duty chassis, ball-bearing guide rails and central lock
- Included: digital voltage tester, 3/8" VDE torque spanner Safety lock, socket spanner and ratchet in 3/8" and 1/2", and many more.

### Content:

- 3/8" VDE tool kit with SW 6 - 22; XZN M8 - M12
- 3/8" VDE torque spanner 5 - 25 Nm
- 1/2" VDE tool kit with SW 10 - 24; IN 5 - 8 mm
- VDE single open-end spanner SW 9 - 24
- VDE single end ring spanner SW 8 - 22
- VDE slotted and cross-head screwdriver; TX T8 - T30
- VDE cable shear, VDE universal pliers, VDE power combination pliers, VDE power diagonal cutter, VDE flat nose-round pliers, angled, VDE flat pliers, VDE cable stripping knife
- Meter connection fittings
- Digital voltage tester 1, 000 V
- Electrician's protective gloves
- Undergloves
- Rubberised cloth cover 250 x 350 mm
- ISO insulation mat
- Barrier tape
- Warning sign "Flash"
- Warning sign high voltage "Switched ON",
- Warning sign high voltage "Switched OFF"
- Safety padlock
- Plastic clamp 80 mm; 160 mm
- Cable splitting wedge
- Rubber hammer

## KL-0870-10 K **VIDEOSCOPE** *with cleaning function*

Cleaning the air conditioner evaporator is usually done blind. Cleaning agent is sprayed into the ventilation shaft without knowing whether the affected areas have been reached precisely. With the help of the video endoscope with cleaning function **KL-0870-10 K**, cleaning can be carried out very precisely, saving time and money. The cleaning nozzle and the camera are mounted at a 90° angle to the cable/hose. This enables you to clean even hard-to-reach places.

The small lens with LED illumination delivers high-resolution images to the 3.5" LCD display. Images and videos can be saved with date and time stamp to provide the customer with detailed documentation. With this tool, the cleaning of the air conditioning evaporator is carried out extremely precisely and economically, thus saving time and money.

**NEW**

**NEW**

## KL-0880-10 K **VIDEOSCOPE** Ø 3.9 mm

Damage analysis on engines, transmissions, exhaust systems, etc. is always a difficult undertaking. In most cases, many add-on parts have to be dismantled or the component to be inspected has to be disassembled in order to carry out a meaningful visual inspection.

This is very time-consuming and costly, just to find out whether there is any damage at all, and if so, what kind. This can be avoided with the **KL-0880-10 K** video endoscope from Gedore Automotive. Due to its extremely small lens and a swivel range of over 360°, you can get to any part of the component to be inspected with only minor disassembly work. Thanks to the 3-stage LED illumination, everything can be optimally illuminated.

The videoscope is able to provide the images and videos with date and time stamp in order to offer the customer a detailed documentation of the damage analysis. The live images and recordings are displayed via a high-resolution HD colour display. Alternatively, it is possible to connect a smartphone or tablet to the device. The recordings are simply transferred to any computer via USB. This robust and at the same time very delicate tool saves a lot of time and money when troubleshooting.

KL-0870-10 K  
**VIDEOSCOPE**  
 with cleaning function

Universally applicable on cars, vans, commercial vehicles, buses, construction machinery, agricultural machinery.

- Enables the localisation and targeted removal of contamination.
- The transversely mounted camera with LED illumination and cleaning nozzle reaches even hard-to-reach places, e.g. the evaporator of the air-conditioning system.
- Slim camera unit Ø15x23 mm with powerful cleaning nozzle
- Dust- and water-proof lens with adjustable LED illumination
- For standard compressed air connection with 6 - 8 bar
- 250 ml container for cleaning fluids
- Live viewing via 3.5" colour display with zoom, rotate and mirror function
- Photo and video documentation with date/time stamp
- Incl. 8 GB microSD card and powerful 3.7 V lithium-polymer battery (1650mAh)
- Direct playback of photos and videos on the display

## FORCING WHEEL PRESS / BODY PRESS

Made in Germany

Fits universally for commercial vehicles, municipal vehicles, agricultural machinery, and passenger cars.

- For fast and powerful bead breaking of stuck wheels
- Also suitable for various straightening work on body parts
- Compact design for confined spaces
- Length adjustable by means of pressure pieces, extensions and fine adjustment

Code	No.	Max. load:	Variable total length	Max. hydr. cylinder stroke	Weight
3412865	KL-1029-20 A	17 t	120 - 250 mm	15 mm	4.6 kg

KL-1029-20 K\*

## COMMERCIAL VEHICLE WHEEL BEAD BREAKER

Fits universally for stuck commercial vehicle wheels.

- For easy removal of stuck wheels or rims from the wheel hub.
- Also suitable for twin tyres

\* only while stocks last.

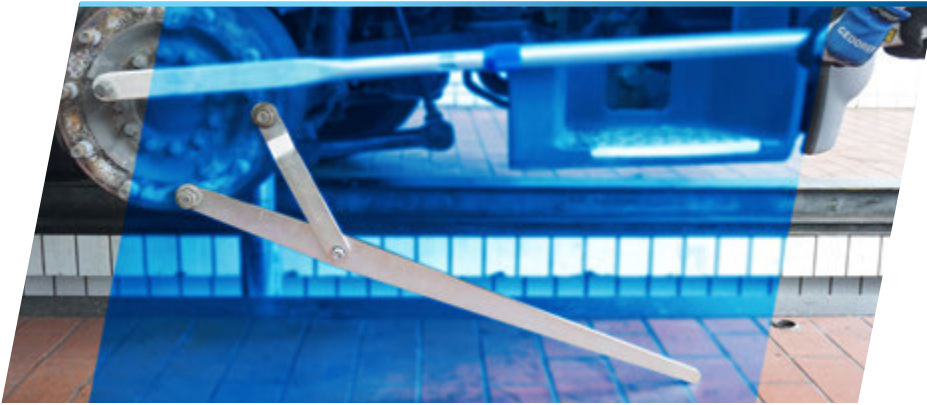

Code	No.	Max. load:	Length (thrust piece 1)	Length (thrust piece 2)	Length (thrust piece 3)	Weight

KL-1000-0115

## RETAINER FOR WHEEL HUBS

Made in Germany

Fits universally for commercial vehicles, municipal vehicles, and agricultural machinery.

- Enables professional counter-holding of the wheel hub via the wheel studs
- For loosening and controlled torque-tightening of the wheel bearing, stub axle, and brake disc screw connections and those of the wheel capsule

**Suitability:** Universal

Code	No.	Length	Length of swivel arm	Bore diameter
3413195	KL-1000-0115	990 mm	315 mm	23 mm

KL-1029-300

## WHEEL HUB LIFTING ADAPTOR

Made in Germany

Fits universally for commercial vehicles and trailers.

- For easy and back-friendly lifting of heavy-weight wheel hubs
- One-man operation
- Stepless adjustment in order to keep the wheel hub in balance
- Versatile use, e.g. when changing brake discs

**Suitability:** Universal

Code	No.	Max. load:	Max. wheel bolt diameter:	Adjustment range	Weight
3413071	KL-1029-300	300 kg	22 mm	110 mm	1.1 kg

KL-1023-4...

## AXLE NUT SOCKET

double hexagon

Made in Germany

- Required for professional unscrewing and tightening of hub caps or axle nuts

# MOBILE WORKSHOP/ ASSEMBLY TROLLEY MODULO FOR COMMERCIAL VEHICLES

In its unique composition, the assembly trolley "MODULO 820/8200" for commercial vehicles is the ideal mobile workstation for fast, organised, and efficient repairs.

Universally applicable for repairs on wheel bearings, steering and axle systems on commercial vehicles, buses, construction machinery, agricultural machinery, trailers, and semi-trailers.

**1**

#### Body:

- Dimensions: H 985 x W 1200 x D 635 mm
- 30 mm thick multiplex laminated beech board, surface additionally protected by linseed oil varnish
- Worktop offset to the rear allows flush parking against the wall
- A drawer unit in trolley width
- Manoeuvrable and easy to steer with drive/steer handle
- Side panels with Euro perforation 10 x 38 mm for attaching hooks and tools
- Sheet steel, corrosion-resistant and scratch-resistant powder-coated, GEDORE blue

#### Drawers:

- Design with four drawers
- Central lock with cylinder lock
- Wide drawers (W 998 x D 474 mm) with full extension, can be taken out
- Single lock prevents opening of more than one drawer, one-hand operation
- Ball-bearing guide rails with self-closing mechanism
- Load-carrying capacity per drawer 70 kg
- Sheet steel, corrosion and scratch-resistant powder-coating, GEDORE blue

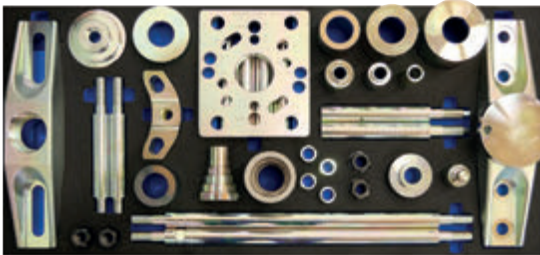

**2**

- KL-0039-1003 - Mounting adapter for hydraulic cylinders

- KL-1010-140 B - Thrust piece/sleeve set Ø65 mm
- KL-1029-300 - Wheel hub lifting tool
- KL-1070-1224 - Slogging double ring wrench SW24
- 600 E-1500 - Metalworker's hammer 1.5 kg

**Content / range of application:**

- Various drive parts for operating the tool kits (depending on model with hydraulic cylinder 28 t)
- Pressing out wheel hubs with removable hub cap
- For wheel hubs with bolt circle diameters 8x275 mm and 10x335 mm
- For wheel hubs with bolt circle diameters 8x275 mm and 10x335 mm
- For pressing bushings, bearings, and bolts in and out
- Removal and installation of slotted and closed silent blocks

- Separating of ball joint connections on steering and axle systems
- Loosening and adjusting of tie rod ends
- Lifting of heavy-weight wheel hubs with a workshop crane
- Loosening and tightening of brake calliper screw connections which are hard to unscrew
- Including high-quality GEDORE hand tools

**The suitable hydraulic pump can be found on page 21.**

**93 parts**

Code	No.	W/H/D	Load-carrying capacity (static / dynamic)	Content
3425835	KL-4999-820	1,200 / 985 / 635 mm	1,000 kg / 750 kg	<b>incl.</b> hydraulic cylinder
3427587	KL-4999-8200	1,200 / 985 / 635 mm	1,000 kg / 750 kg	<b>without</b> hydraulic cylinder

KL-4999-1280

**SURFACE-MOUNT WORKTOP**  
for KL-4999 series / 1507 XL

**Fits the MODULO workshop trolley KL -4999 series and GEDORE 1507 XL.**

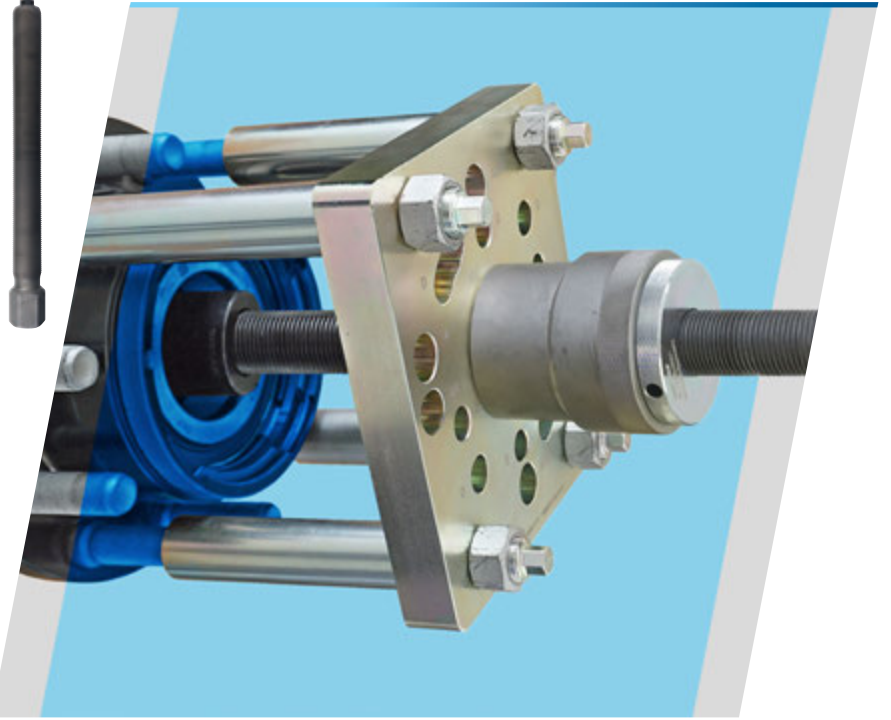

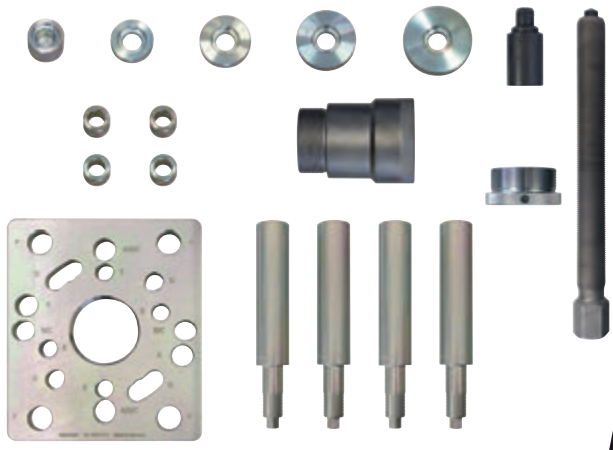

- To be placed on the wooden worktop
- Extremely robust, impact resistant and oil resistant
- With 2x can shelves and 8x storage compartments

**NEW**

Code	No.	Inner plate dimension	Material	Weight
3428001	KL-4999-1280	1202 x 639 mm	Impact and oil resistant ABS hard plastic	3.2 kg

KL-1005-111 Z

**WHEEL HUB PULLER, MECHANICAL**

Universally suitable for commercial vehicle wheel hub/bearing units with removable hub cap.

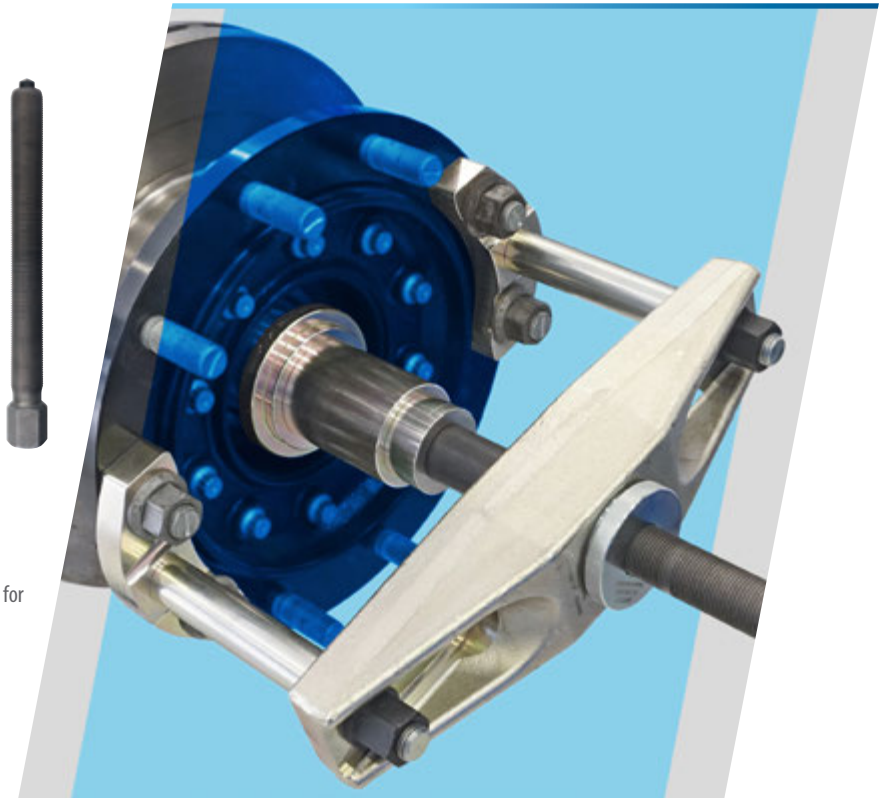

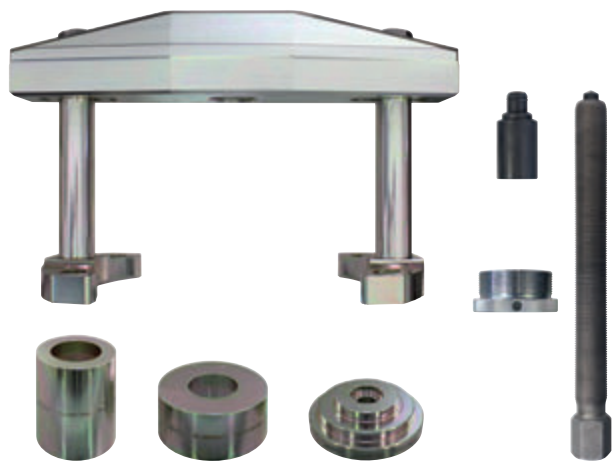

- For a bolt circle dia. at the hub of 10x120, 10x122, 10x143, 10x165, 10x168, 10x225, 12x144, 12x145, 12x164, 12x168, 14x138, 14x144 mm
- For professional pulling of wheel hub/bearing units
- A hydraulic drive with 28 t cylinder is also possible (accessories required)

Suitability: Universal

Code	No.	Max. load (tool kit)	Bolt circle hub	Pitch circle hub wheel hub for low-loaders
3418596	KL-1005-111 Z	28 t	10x120, 10x122, 10x143, 10x165, 10x168, 12x144, 12x145, 12x164, 12x168, 14x138, 14x144	10x225

KL-1005-100 A Z

**WHEEL HUB PULLER SETS, MECHANICAL**

Universal fit for commercial vehicles (as well as wheel hubs with integrated compact wheel bearing) with removable hub cap.

- For axle systems with a pitch hole diameter of 8x275 mm and 10x335 mm for BPW, SAF, and ZF
- For professional removal of the wheel hub directly on the vehicle
- A hydraulic drive with 28 t cylinder is also possible (accessories required)

Suitability: **MERCEDES** **MAN** **RENAULT**  
**VOLVO** **IVECO** **SCANIA**

Code	No.	Hole circle Ø	Max. load on tool kit	Axle systems
3418588	KL-1005-100 A Z	8 x 275 mm / 10 x 335 mm	28 t	BPW, SAF, ZF

KL-1005-800

## MECHANICAL DRIVE KIT

Made in Germany

- For simple, mechanical drive of the commercial vehicle wheel hub puller sets **KL-1005-1...**
- Can also be used on press frame **KL-1039-111** with thrust spindle **1.3306500** (accessory)

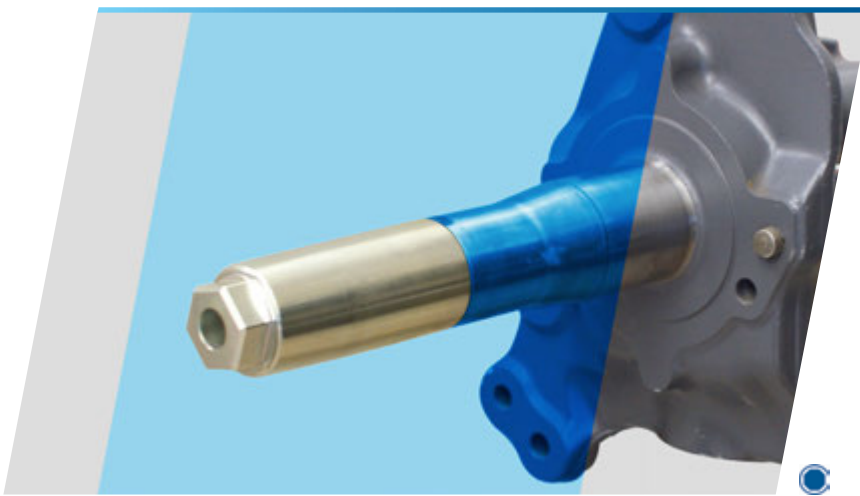

Code	No.	Thread	Spanner size	Working length
3412881	KL-1005-800	G1"	36 mm	310 mm

KL-1027-4560

## WHEEL-BEARING CENTRING SLEEVE

60 mm diameter

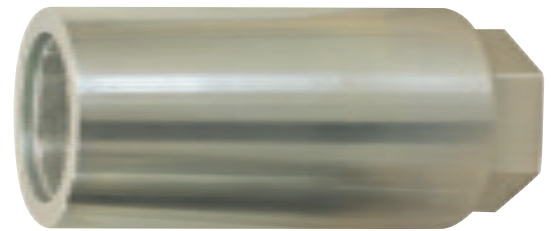

Made in Germany

Suitable for Mercedes front axle.

- For the assembly of the compact wheel bearing with wheel hub
- For precise pushing onto the axle tube

Suitability: **MERCEDES**

Code	No.	Connection thread	Outside diameter	Length	Spanner size
2672588	KL-1027-4560	M45x1.5	60 mm	145 mm	41 mm

KL-1027-45..

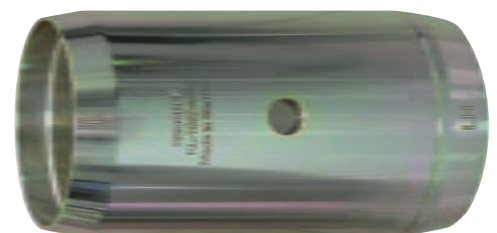

## WHEEL BEARING CENTRING SLEEVE

Made in Germany

Suitable for SAF axles with right-hand or left-hand thread

- For the assembly of the compact wheel bearing with wheel hub
- For precise pushing onto the axle tube

Code	No.	Designation	Connection thread	Outside diameter	Length
2991519	KL-1027-4582	Wheel-bearing centring sleeve 82 mm diameter	M75x1.5 (right-hand & left-hand thread)	150 mm	82 mm
2991527	KL-1027-4588	Wheel-bearing centring sleeve 88 mm diameter	M75x1.5 (right-hand & left-hand thread)	150 mm	88 mm

**NEW**

KL-0173-460 K

**RETHREADING TOOL KIT M50 - M110x1.5**  
for right-hand and left-hand thread

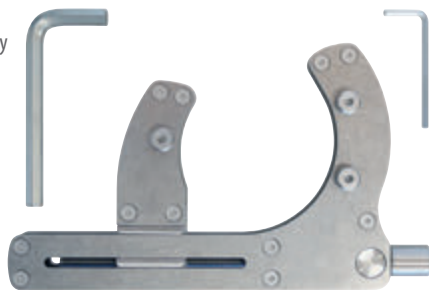

Universally fits all M50 - M110x1.5 right-hand and left-hand threads, for example on commercial vehicles, buses, construction machinery, agricultural machinery, trailers, and semi-trailers.

- QUICK, PROFESSIONAL, and CHIPLESS, simply EFFICIENT!
- Simple and quick rethreading of external threads directly on the vehicle
- Time-consuming and costly axle replacements in case of damaged axle threads are no longer needed
- Chipless rethreading of the thread by rolling (forming, pressing, shaping)
- No material removed, in comparison to thread cutting and filing
- Original geometry and strength is completely maintained
- Surface on the thread is additionally compacted again
- Thread remains up to 2 times higher dynamic load capacity
- Further thread roller sets also available as accessories

**Recommended accessories:**

KL-0173-4601 - Set of thread rollers for 1 mm pitch

KL-0173-4604 - Set of thread rollers for 2 mm pitch

Made in Germany

**NEW**

Code	No.	for thread	Type of thread	Pitch	Content
3436217	KL-0173-460 K	M50 - M110	Right-hand / left-hand thread	1.5 mm	9 piece

Made in Germany

KL-0173-4601

**SET OF THREAD ROLLERS**  
for 1 mm pitch

**NEW**

- For use with the rethreading tool

KL-0173-460 K

- Suitable for right-hand thread with 1 mm pitch

Code	No.	Thread pitch	Thread
3436098	KL-0173-4601	1 mm	Right-hand pitch

Made in Germany

KL-0173-4604

**SET OF THREAD ROLLERS**  
for 2 mm pitch

**NEW**

- For use with the rethreading tool
- Suitable for right-hand thread with 2 mm pitch

Code	No.	Thread pitch	Thread
3436160	KL-0173-4604	2 mm	Right-hand pitch

KL-1010-90 K

## SILENT BLOCK TOOL KIT

Made in Germany

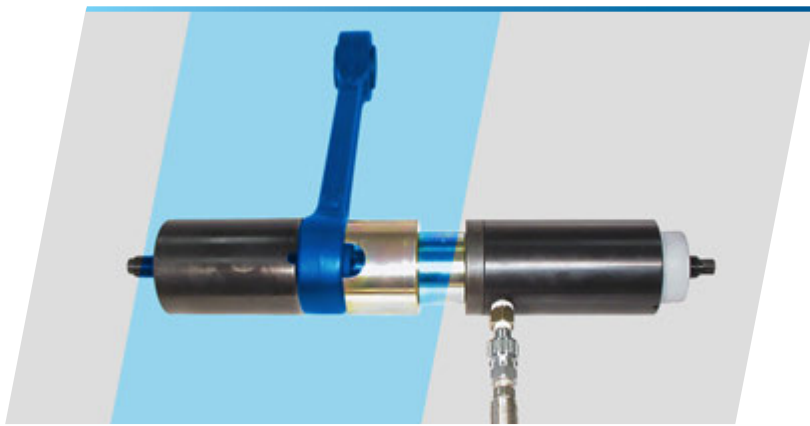

Universally suitable for slotted and closed silent blocks on commercial vehicles.

- For outside diameters (installed/removed) 51/52, 60/62, 63/65, 65/70, 75/80 mm
- Enables the quick and professional removal and installation directly on the vehicle
- Additional mechanical drive parts necessary!

Suitability: Universal, particularly for

**NEW**

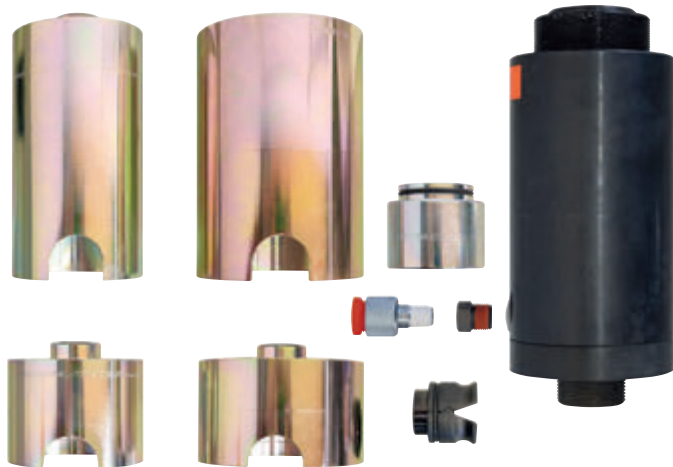

Code	No.	Bearing diameter (installed)	Width (case)	Depth (case)	Height (case)
3425703	KL-1010-90 K	51 / 60 / 63 / 65 / 75 mm	442 mm	357 mm	151 mm

KL-1010-106 K

## DRIVE KIT 28T FOR KL-1010-SERIES

Made in Germany

**NEW**

Appropriate drive parts for the commercial vehicle tool kit KL-1010-90-K.

Hydraulic pump required!

Consisting of:

- Hydraulic cylinder 28t
- Pulling spindle M20 x 590 mm
- Quick-release nut M20
- Mounting adapter
- Support sleeves, long, Ø 70 / 90 mm
- Support sleeves, short, Ø 70 / 90 mm

Code	No.	Max. load on the hydraulic cylinder	Max. load of pull spindle:	Width (case)	Depth (case)	Height (case)
3427846	KL-1010-106 K	28 t	20 t	442 mm	357 mm	151 mm

KL-1011-121

## BPW SILENT BLOCK TOOL

Made in Germany

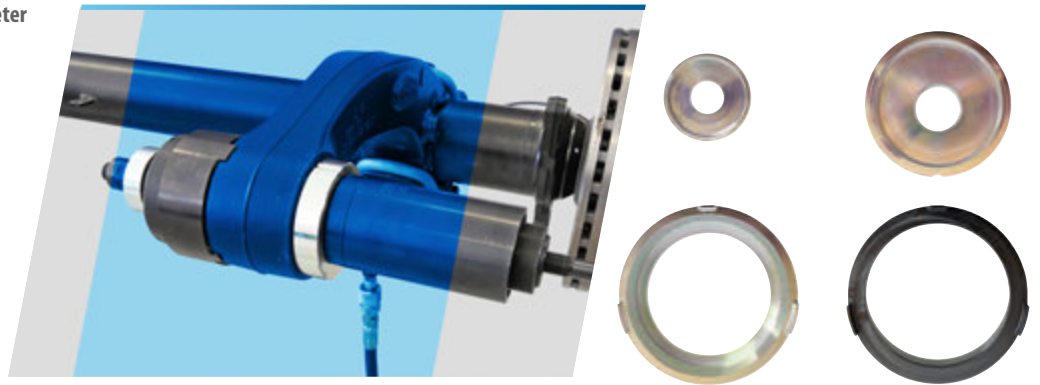

Suitable for silent blocks with an axle bore diameter of 132 mm.

- For quick and professional insertion and removal on the wishbone
- For steel-rubber bushings No. 02.0314.38.00
- For example, on BPW ECO Air/ECO Air Compact axles
- Additional mechanical drive parts necessary!

Suitability: Universal

**NEW**

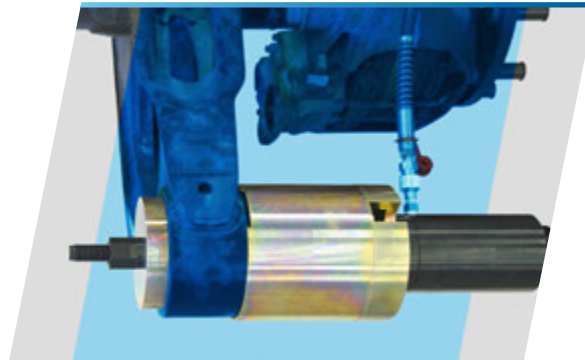

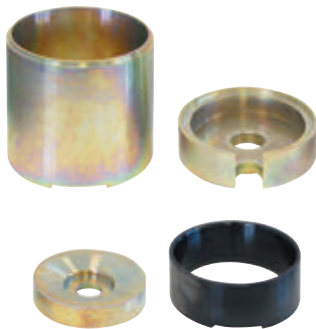

Code	No.	Sleeve	Thrust piece bore	Weight
3417158	KL-1011-121	conical	eccentric	6.8 kg

KL-1011-111

## SLEEVE SAF TRUCK - SILENT BLOCK

Ø 139 mm

Made in Germany

Suitable for silent blocs with a bore diameter of 139 mm; e.g. SAF Intradisc plus air suspension axles.

- For a quick and secure removal and installation on the axle suspension
- High time saving (approx. 4h)
- Repair can be performed directly on the vehicle
- Additional mechanical drive parts necessary!

Code	No.	for outside diameter (installed)	Drive type	Weight
2450178	KL-1011-111	139 mm	hydraulic	13.4 kg

KL-1039-1111

## SUPPLEMENT FOR KL-1005-100 A

to commercial vehicle press frame 28 t

Made in Germany

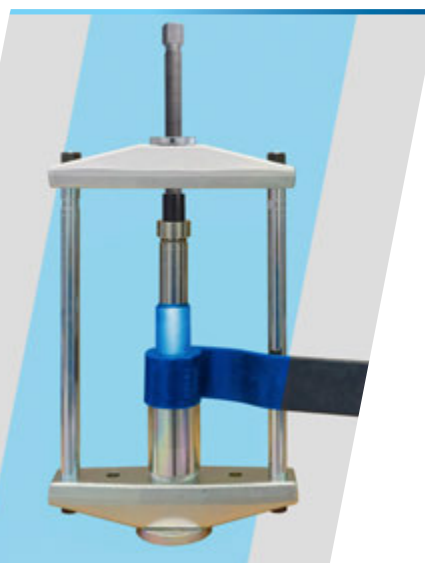

Universal fit for commercial vehicles, construction machines, agricultural machines, trailers and semi-trailers.

- For pressing bushings, bearings or bolts in and out **directly on the vehicle**
- Can be extended by pressure/support sleeves from the **KL-0039 series**
- Can also be used steadily due to its mounting base
- Length and width adjustable

Suitability: Universal

Only in combination with KL-1005-100 A (Additional mechanical drive parts necessary!)

Code	No.	Width (inside)	Length (inside)	Max. load:
3275280	KL-1039-1111	180 - 320 mm	500 - 700 mm	28 t

KL-1002-1010

**DRIVE KIT M20**  
for hydr. cyl. With 89 mm

Made in Germany

- Driving GEDORE Automotive tools with a hydraulic cylinder from a foreign manufacturer (e.g. NIKE® hydraulics)

Code	No.	Max. load:	Length pull spindle	Thread pull spindle
2447509	KL-1002-1010	20 t	590 mm	M20 to UNC 1"-8

KL-0040-2800

**HYDRAULIC CYLINDER 28T**

Made in Germany

- The hollow-piston cylinder is suitable for pulling and pushing
- For the removal and installation of cardan shafts, silent blocks, wheel bearings and suspension joints

Code	No.	Max. admissible force	Max. stroke	Max. oil pressure	Thread with hollow piston	Fastening thread, pressure side	Fastening thread, pull side	Cylinder outside diameter	Connection thread for hydraulic coupling
2016893	KL-0040-2800	285 kN (28 t)	50 mm	700 bars	M24	2 3/4"-16 UN	M42x2	99 mm	3/8" NPT

KL-0215-36 M28

**HYDRAULIC PUMP, AIR-OPERATED**

- Can be used as hydraulic cylinder drive
- Compressed air is used for driving
- Foot pedal with three positions for pumping, holding, and relieving
- Both hand are free for the work

Code	No.	Max. pressure	Operating pressure	Weight
2478730	KL-0215-36 M28	700 bars	8 - 12 bar	8 kg

KL-1025-105

**SHAFT SEAL PRESSER Ø 105 MM**

Made in Germany

Suitable for MAN rear axles on the inner and outer shaft seal ring.

- For professional assembly of the outer shaft seal ring
- For professional assembly of the inner shaft seal ring with magnet wheel
- Improper assembly leads to leaks and ABS faults

Code	No.	Ø	Weight
3089304	KL-1025-105	105 mm	3 kg

KL-1025-175 A

**SHAFT SEAL PRESSER Ø 175 MM**

Made in Germany

**Suitable for Mercedes Actros and Atego rear axle shaft seal rings.**

- For professional assembly of the shaft seal
- Also for rear axles with double sealing
- Also for AP axles

Code	No.	Ø	Weight
3282708	KL-1025-175 A	175 mm	8.6 kg

KL-0169-81

**TIE ROD WRENCH SW34**

Made in Germany

**Suitable for tie or push rods with SW 34 mm on commercial vehicles, for example cranked rods with all-wheel vehicles.**

- For quick loosening and adjusting of sluggish track or push rods
- Uniform power transmission due to complete enclosing of the hexagon
- No need to replace the entire tie rod or push rod

Code	No.	Wrench size:	Drive	Design
3245810	KL-0169-81	34 mm	3/4"	Split

KL-0169-82

**LOOSENING TOOL FOR TIE ROD END**

Made in Germany

**Fits universally for tie rod ends on commercial vehicles, buses, and tractors.**

- For quick and professional installation and removal of sluggish tie rod ends
- Power transmission across the entire tie rod end
- No need to replace the tie rod or push rod
- Drive via 3/4" square socket

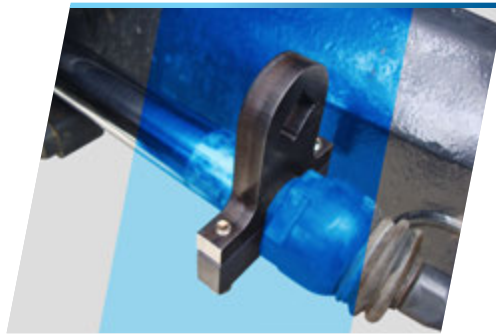

Code	No.	Drive	Height (inner)	Diameter (inner)	U-shaped cut-out	Height (outer)	Diameter (outer)
3267806	KL-0169-82	3/4"	70 mm	80 mm	65 x 40 mm	90 mm	95 mm

KL-0169-83

## TRACK ROD WRENCH, SIZE 30

Made in Germany

Suitable for tie rods with SW 30 adjustment thread, for example for Deutz-Fahr, Fendt, etc.

- For quick and professional loosening and adjusting of sluggish tie rods
- Closed power transmission via the counterholding surfaces
- No slipping or widening as with open-ended wrenches
- Conventional open-end wrenches are too wide
- No need to replace the tie rod or push rod

3/4"

Code	No.	SW	for profile	Drive (square)	Design	Length
3442748	KL-0169-83	30 mm	2-edge / hexagon	3/4"	separated	120 mm

KL-0167-30 A

## EXCENTRIC WRENCH

for quick removal and installation of axial joints

Fits universally for cars and vans.

For the quick removal and installation of internal track rod or rod or axial joints with a  $\varnothing$  of 30 - 43 mm.

- High time saving
- Without removing the steering gear
- Unique open construction
- Resistant profiling reliably prevents reliable slipping of the tool
- Direct mounting on the tie rod
- Drive via 1/2" square socket

Made in Germany

Application video

1/2"

Suitability: universally, especially for:

Code	No.	Drive	For $\varnothing$ (min.)	For $\varnothing$ (max.)
3427900	KL-0167-30 A	1/2"	30 mm	43 mm

KL-4007-3270

## EXTENSION 700 MM, 1/2"

Universal fit.

- Especially suitable for KL-0167-30 / -30 A
- For hand-operated socket spanners
- With ball lock.

1/2"

Code	No.	Drive	Length	Weight
3447707	KL-4007-3270	1/2"	700 mm	920 g

KL-0169-60

## TOE MEASURING GAUGE

Fits universally for passenger cars, commercial vehicles, vans, etc.

- For quick and simple toe difference measurement on the inner rim flange

Made in Germany

Code	No.	Toe difference scale	Measuring range
3230295	KL-0169-60	0 to 40 mm	950 - 1500 mm

## KL-0169-61 EXTENSION

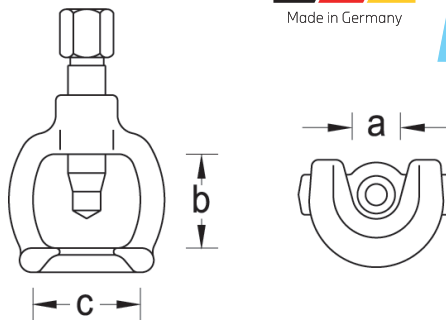

- To extend the measuring range of the toe measuring gauge **KL-0169-60** from 1500 mm to a maximum of 2150 mm
- Only in combination with **KL-0169-60**

Code	No.	Length
3230317	KL-0169-61	670 mm

1.72/..

## BALL JOINT PULLER

Made in Germany

- For simple and gentle pushing of the ball joint bolts on tie or push rods.

Code	No.	Drive	a	b	c
2183323	1.72/4A	22 mm	40 mm	80 mm	80 mm
2183331	1.72/5A	27 mm	46 mm	100 mm	90 mm

KL-0165-3 KA

## SET OF BALL JOINT BREAKERS (with 6 forks)

Made in Germany

Fits universally for commercial vehicles and vans.

- For breaking ball joint connections on axle and steering systems
- Variable due to exchangeable forks
- High stability
- Ideal release pressure point and breaking angle adjustable

Suitability: Universal

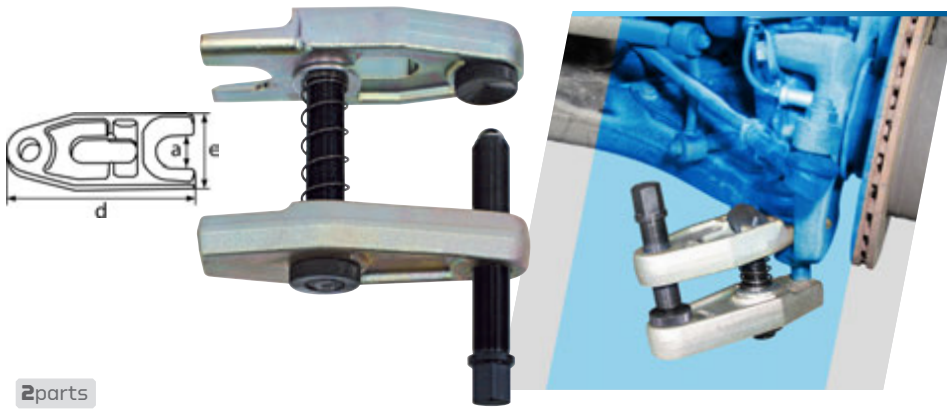

Code	No.	Size	Fork opening	Height (case)	Depth (case)	Width (case)
2801817	KL-0165-3 KA	3	30 - 47 mm	123 mm	360 mm	450 mm

KL-0165-35

## BALL JOINT BREAKER SIZE 3

Made in Germany

Suitable for support joints MB sprinter, VW LT, guide joint VW T4, MB Citaro EvoBus O 530 stabiliser ball joint etc.

- For removing ball joint connections on axle and steering systems
- Variable due to exchangeable forks

**Recommended accessories:**  
1993 U-20 - reversible ratchet 1/2"

**Suitability: universally, especially for:**

2 parts

Code	No.	Size	Fork width (e)	Fork opening (a)	SW	Spindle	Length (d)	Weight
1753614	KL-0165-35	Size 3	80 mm	33 mm	24 mm	M24x1.5 x 135	200 mm	5.6 kg

IN 32 L ...-155

## IN-HEX SOCKETS

Made in Germany

- For professional removal and tightening of brake calliper fastening screws
- The 155 mm long version also makes it possible to reach deep-seated brake calliper fastening screws

3/4"

Code	No.	Spanner size	Profile	Shaft length	Overall length	Drive
2003503	IN 32 L 14-155	14 mm	Inner hexagon	100 mm	155 mm	3/4"
1353705	IN 32 L 17-155	17 mm	Inner hexagon	100 mm	155 mm	3/4"
2003511	IN 32 L 19-155	19 mm	Inner hexagon	100 mm	155 mm	3/4"

KL-1072-100

## BRAKE CALLIPER LIFTING DEVICE

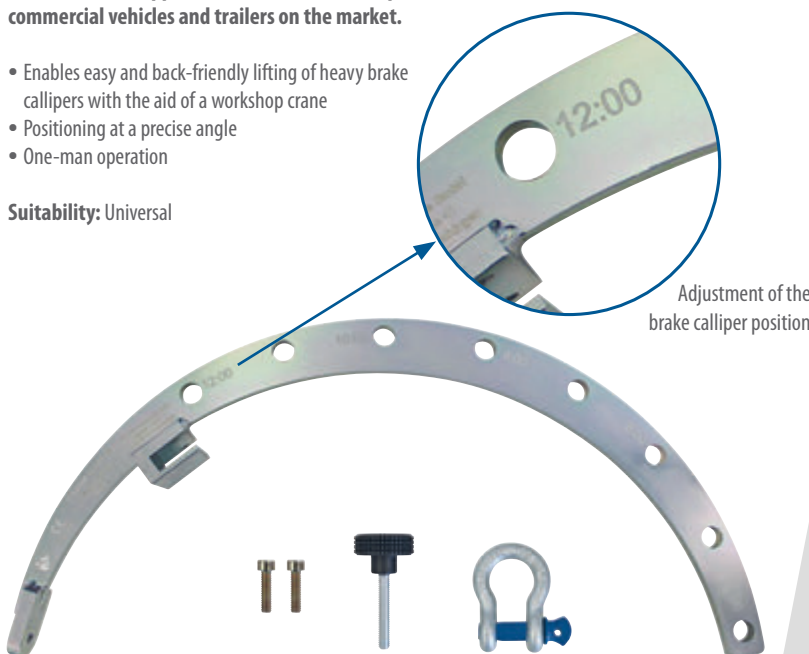

Made in Germany

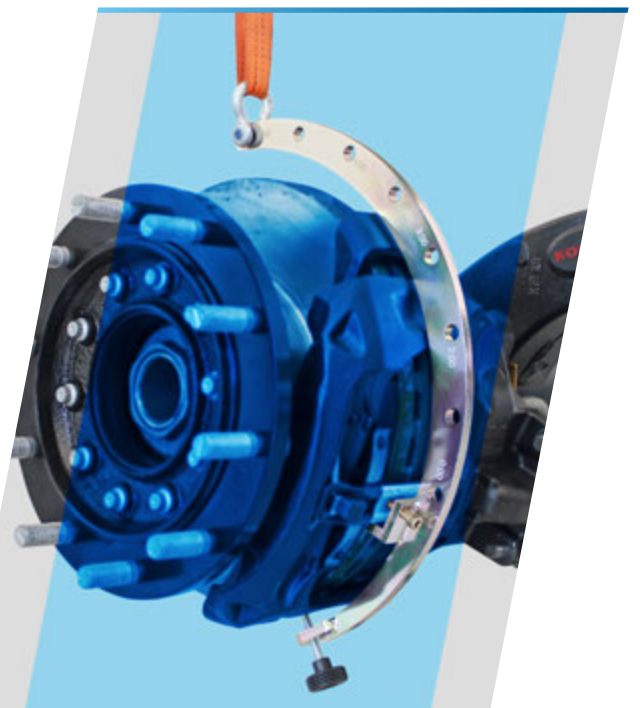

Universal fit for approx. 90% of the brake callipers on commercial vehicles and trailers on the market.

- Enables easy and back-friendly lifting of heavy brake callipers with the aid of a workshop crane
- Positioning at a precise angle
- One-man operation

**Suitability:** Universal

Adjustment of the brake calliper position

Code	No.	Max. load:	Brake calliper position	Shackle position	Weight
3415589	KL-1072-100	75 kg	0:00 to 5:00 / 7:00 to 12:00	8-way, adjustable	2.1 kg

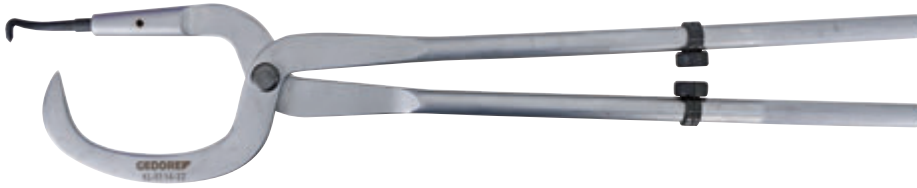

KL-0114-22

## BRAKE SPRING PLIERS COMMERCIAL VEHICLES

Universally applicable.

- For unhooking and rehooking brake shoe retaining springs
- For air or hydraulic drum brakes
- Especially strong version

Code	No.	Length	Weight
1858076	KL-0114-22	535 mm	1150 g

KL-0121-512

## HOSE CLAMP PLIERS

**NEW**

Universal fit.

- For removal and installation of hoses secured by spring band clamps
- For straight or 90° offset applications

Code	No.	Design	Length	Weight
3435504	KL-0121-512	extra song	535 mm	1.1 kg

KL-1070-13..

## DOUBLE SLOGGING SPANNER

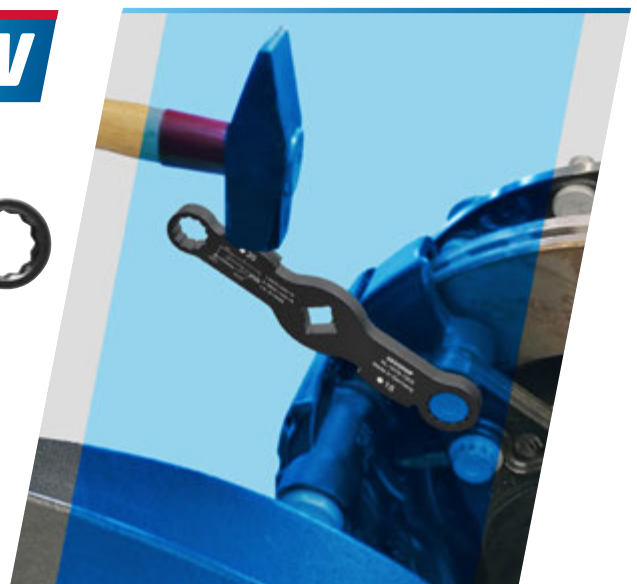

Made in Germany

Can be used on screw connections with hexagonal, double hexagon and Torx® profiles.

- Unique slogging spanner with double spanner profile
- Easy-made loosening and tightening of tight-fitting screw connections
- Professional tightening of the fittings according to their torque with 3/4" inner square
- High industrial quality for heavy and permanent use
- Slim design for areas which are hard to reach
- Engraved torque conversion formula

**NEW**

Code	No.	Length	Spanner size	Profile	Square socket
3424766	KL-1070-1301	235 mm	21 mm + 24 mm	12-edge	3/4"
3434222	KL-1070-1302	235 mm	19 mm + E24	12-edge / TX	3/4"
3434257	KL-1070-1303	235 mm	E18 + E20	TX	3/4"

KL-0190-55

## PLIERS FOR AIR LINE

Fits universally for plastic compressed air lines with an external diameter of 6, 8, 10, 12, and 16 mm.

- For a stable and damage-free fixing of the plastic compressed air line
- Helpful when installing a knock-in nipple or line connector

Code	No.	For line diameter	Length
3036324	KL-0190-55	6, 8, 10, 12, 16 mm	280 mm

KL-0132-14 K

## THREAD REPAIR KIT FOR EXHAUST SENSOR

Made in Germany

Universal fit for NOx sensors, lambda sensors, and injection units for soot/particle filter regeneration with mounting threads M20x1.5 and M22x1.5.

- For quick recutting of coked or damaged mounting threads on the exhaust pipe
- Also for very confined spaces
- No removal of the entire exhaust pipe necessary
- Incl. open ring spanner for loosening and tightening the exhaust sensors and units

5 parts

Code	No.	Tap	Tap length	Tap drive	Double ring spanner
3430847	KL-0132-14 K	M20x1.5 + M22x1.5	45 mm	SW13 mm	SW22 + 24 (open)

KL-0363-2 A

## MOTOR ROTATION DEVICE with 2 gearwheels

Suitable for Mercedes 6-, 8 and 10 cylinder MAN 12 cylinder commercial vehicle engines.

- For precise spinning of the engine, e.g. when adjusting the valves

1/2"

Code	No.	Drive	for engine type	Design	Weight
3036421	KL-0363-2 A	1/2"	Diesel	2 gearwheels	470 g

KL-0363-3 A

## MOTOR ROTATION DEVICE with 3 gearwheels

Suitable for Mercedes 4, 6 and 8 cylinder MAN 5, 6 8 cylinder commercial vehicle engines.

- For precise spinning of the engine, e.g. when adjusting the valves

1/2"

Code	No.	Drive	for engine type	Design	Weight
3036456	KL-0363-3 A	1/2"	Diesel	3 gearwheels	800 g

KL-0363-4

## MOTOR ROTATION DEVICE

with 1 gearwheel

Fits for MAN 6 and 8 cylinder commercial vehicle engines. (Engine code: D20, D25, D26, D28)

- For an exact rotation of the engine

1/2"

Code	No.	Drive	for engine type	Design	Weight
2432366	KL-0363-4	1/2"	Diesel	1 gearwheel	480 g

KL-0363-5

## MOTOR ROTATION DEVICE

Fits for Volvo and Renault 6 cylinder commercial vehicle engines.

- For precise spinning of the engine, e.g. when adjusting the valves

1/2"

Code	No.	Drive	for engine type	Design	Weight
3036359	KL-0363-5	1/2"	Diesel	1 gearwheel	790 g

R95400145  
**SPOTLIGHT**

- Compact, portable spotlight
- Ideal for working in places without power supply
- Rubberised surround, therefore shockproof and splashproof
- 180° rotatable base
- Stand can also be hung up or used as a carrying handle
- Easy alignment of the light
- Power bank function for charging external devices

Code	No.	Width	Burn time	Battery capacity	Charging time	Weight
3301761	R95400145	145 mm	6 h	4.400 mAh	4 h	640 g

OCHSENKOPF is a sign for perfection and safety in forestry and carpenter's tools. Since its foundation in 1781 by the Fahlefeld brothers, the best steel with the best grind has been forged to the highest level of quality in the Remscheid axe forge. An OCHSENKOPF axe stands for craftsmanship at the highest level. It is still the pride of the traditional Bergisch tool industry. A brand like a myth.

OX 635 H-3009

**PROFI WOOD SPLITTING HAMMER BIG OX®**

- With ROTBAND-PLUS handle fastening
- Forged hammer head with reversible nose and extra large striking surface, e.g. for driving wedges
- With high-quality, swell-end handle made of hickory wood and blade protection
